Press Release Report on 02.03.2026

Automation System for Hostel Management Launched for the First Time at Dravidian University Dravidian University has introduced a modern automation system for hostel management for the first time, effective from this month. The system was formally inaugurated by the Hon'ble Vice-Chancellor, Prof. M. Doraswamy. And Registrar, Prof. V. Kiran Kumar; Chief Warden, Prof. K. Shyamala; Hostel Warden (Men), Prof. Sravan Kumar; and Hostel Warden (Women), Dr. Sailamma.

Through this newly introduced automated system, hostel fee payments, room allotments, student records, and other administrative data will be managed entirely in digital format. In addition to enhancing transparency in fee payments, financial transactions will be properly monitored and maintained. This system enables students to pay hostel fees easily and transparently. Since all payment details are digitally recorded, errors will be minimized and the auditing process will become more efficient.

Furthermore, the automation system will facilitate comprehensive management of hostel residents' attendance, room allocations, admissions, and other essential information. It ensures that required information is readily available whenever needed.

With the launch of this technology-driven system, the University authorities stated that Dravidian University has taken another significant step toward enhancing student welfare and administrative transparency.

Dr. P. S. Ganesh Moorthy
